

## PROFILE

→ What EconStor has to offer

*EconStor is the new Open Access publication server of the German National Library of Economics (ZBW).*

EconStor provides a publishing platform for academic literature in economics which is free and guarantees long-term availability.

We ensure persistent citability and optimal dissemination of your publication within the community!

## OUR OFFER

→ Publication service for greater visibility

*You want to let the community know about the results of your research?*

We provide a full service that allows you to do so.

EconStor offers you a comprehensive publication service for entire series of working papers, online journals or conference proceedings.

We upload your PDF documents and process all relevant title data such as abstracts, author keywords and/or JEL codes.

## OUR SERVICES

→ Let us take care of it for you

### **Self-archiving option for your documents**

EconStor offers researchers the opportunity to self-archive their freely available author's versions of articles (postprints) from publishers' journals. You can also archive your theses on EconStor and publish them in Open Access.

### **Greater international visibility of your publications**

Publications on EconStor are automatically relayed to the subject-specific databases ECONIS and wiso-net as well as to the subject-specific gateway EconBiz. EconStor also offers you the option of having title data of entire series and journals entered into the renowned database "RePEc – Research Papers in Economics", thus improving the international visibility of your publications.

### **Access to subject-specific publications**

EconStor provides access to articles from journals and compilations, working and discussion papers, conference papers, theses and research reports.

## OUR REPRESENTATIVE

→ We offer our assistance at no cost to you

*Would you like to publish your papers on EconStor?*

**Then please contact:**
