## PREFACE

The report provides information on the Mining and Quarrying industry in 2020. The information is gathered from the registered establishments engaged in a wide range of activities such as extraction of minerals and supplementary activities aimed at preparing the crude materials for marketing, however, it excludes information on mining and quarrying activities in the informal sector.

The important numbers presented are the macroeconomic aggregates such as Gross Output, Intermediate Consumption, Value Added, Compensation of Employees, Consumption of Fixed Capital and Operating Surplus. These aggregates are combined with similar information on other industries to provide an estimate of Gross Domestic Product, which is a measure of our economy's size. The information made available in this report will allow us to work out the industry's contribution to the economy. It also contributes to the inputs of the national accounts system which basically provides a quantitative image of the whole economy.

The information on the mining and quarrying industry would be useful to a good number of users. They include:

1) Economist who needs to analyse the supply and demand for such activities.
2) Planner who uses the data to forecast the economy's performance.
3) Investor who wishes to have a closer look at opportunities available in the mining and quarrying economy.

The cooperation of those businesses who supplied the information presented in this report is hereby acknowledged. The Fiji Bureau of Statistics will continue to seek their support as we need to continually provide reliable statistics for evidence based planning. I would also like to thank the staff who were engaged in the conduct of the survey and the preparation of this report.

Maria Musudroka [Ms]
Acting Chief Executive

## NOTES

1 The interpretation of the symbols used in this report is as follows:
$0 \quad$ Nil or a figure less than half the given value.
2 Total values are subject to rounding errors.

3 Key to Abbreviations:

| BR | Business Register |
| :--- | :--- |
| CFC | Consumption of Fixed Capital |
| COE | Compensation of Employees |
| FBoS | Fiji Bureau of Statistics |
| FSIC | Fiji Standard Industrial Classification |
| GDP | Gross Domestic Product |
| GFCF | Gross Fixed Capital Formation |
| GO | Gross Output |
| IC | Intermediate Consumption |
| IPI | Industrial Production Index |
| OS | Operating Surplus |
| SAS | Statistical Analysis System |
| VA | Value Added |

VA in the report refers to Gross Value Added.

## 1 INTRODUCTION

### 1.1 History of Surveys Undertaken

This report contains the results of the survey carried out for the Mining and Quarrying industry for 2020. The first economic survey of the mining and quarrying sector was done in 1969 and was combined with the study of the manufacturing and electricity sectors. Since then, the survey has been carried out annually. The results of the survey from 1969 to 1994 were published in reports titled "Census of Industries", from 1995 to 2001 in reports titled "Census of Mining and Quarrying, Manufacturing and Electricity and Water", but from 2002, the results of the mining and quarrying industry are being produced solely on its own in Reports titled Economic Surveys: Mining and Quarrying.

### 1.2 Need for statistics relating to Mining and Quarrying

Mining and quarrying activities account for a substantial proportion of the total economic activity, whether in terms of the sector to the Gross Domestic Product (GDP) or in terms of its share of total employment and Gross Fixed Capital Formation (GFCF). Statistics on the mining and quarrying industry are therefore needed for the preparation of national accounts so that a meaningful study of the whole economy can be made. The data can also be used to construct the input-output table that shows the inter-connection of the mining and quarrying industry with other industries. Policy makers too require the data for formulating sound economic and social policies that augment capital formation. In addition, the establishments engaged in mining and quarrying industry find the data helpful in assessing the future direction of their business.

## 2 METHODOLOGY

### 2.1 Legal Basis

The survey was conducted under the provisions of the Statistics Act (Cap 71). This Act protects the confidentiality of the information submitted by the establishment and stipulates the completion of the questionnaire as well.

### 2.2 Coverage and Scope

The 2020 survey covered, other than the Central Government ${ }^{1}$, all establishments operating in the mining and quarrying industry defined by the Fiji Standard Industrial Classification (FSIC) 2010 Section B. It is nevertheless possible that some small units not employing regular paid workers may have been omitted due to difficulties in identifying them, but the nature of such units do not affect the overall results in any significant way. The businesses in the mining and quarrying industry are predominantly engaged in extraction of minerals occurring naturally and supplementary activities (refer to FSIC 2010 for more details).

[^0]
### 2.3 Statistical Unit

The unit of reporting was the establishment (refer Appendix I on Concepts and Definitions).

### 2.4 The Frame

The frame utilised to survey the establishments engaged in the mining and quarrying industry in 2020 was the list of establishments maintained by the FBoS. This list is known as the Business Register (BR), which is kept updated on the basis of information supplied to the FBoS by the Fiji Revenue and Customs Service, Registrar of Companies and the City and Town Councils. In 2020, there were 21 establishments recorded compared to 24 establishments surveyed in 2019.

### 2.5 Questionnaire Design

A common questionnaire was used for all types of activities related to mining and quarrying. It called for information on the particulars of the establishment e.g. type of organisation, income, expenditure, stocks, assets and employment (refer to Sample Questionnaire attached as Appendix VII).

### 2.6 Data Collection and Survey Procedures

The questionnaires were emailed and replies were required within a month. Response was low, therefore personal visits to obtain the questionnaires were made to those establishments that did not respond and to those establishments that required assistance in filling out the questionnaires (refer to Sample Questionnaire attached as Appendix VII).

Once the questionnaires were received in the office, scrutiny and editing of data contained in them followed. Errors and omissions if found, called for more correspondence, telephone calls or personal visits in an attempt to obtain complete and correctly filled up returns, which were then placed in files sorted by activity and passed on for data entry.

On completion of data entry, tables were run, data edited and analysed and report was written.

### 2.7 Data Processing

Data was processed by FBoS' Economic Statistics Division using Microsoft Excel.

### 2.8 Reference Period

The establishments contacted were to submit details for the calendar year 2020. Where the accounting year differed from the calendar year, establishments were asked to provide information for the accounting year that covered the major part of the calendar year 2020.

### 2.9 Non-responding Establishments

Establishments that did not respond to the survey and establishments that operated during the whole or part of the survey reference period but became untraceable during the survey enumeration period due to closure or removal, were taken as nonrespondents. To account for the operations of non-responding establishments, data were rated-up.

### 2.10 Rate-up Factors

Data of non-responding establishments were calculated using rate-up factors. The rate-up factors were derived by first sorting out establishments into types of business and then grouping these establishments into 6 "number of persons engaged" size groups of 1-4; 5$9 ; 10-19 ; 20-49 ; 50-99$ and 100+. Using number of persons engaged in each of this group, simple arithmetic means of Value Added were obtained. These arithmetic means were then multiplied by number of persons engaged in each of the non-responding group to estimate their data. The estimated figures for the non-responding units were then added to the figures of the responding units to arrive at the estimated data of the entire mining and quarrying industry.

The GFCF too has been estimated for non-response. Generally capital formation in small establishments, like the ones who have not responded in our inquiry, are low.

Empirically,
Let $n_{i j}$ be the number of employees in group $i$ of the $j$ establishment of those sampled and let $g_{i j}$ be its corresponding parameter; $i=1$ to $6 ; j=1$ to $s$, where $s$ is all sample. Then estimate,

Where $\mathrm{k}=$ number responded
$\mathrm{I}=$ number not responded (which is $s-k$ )

## 3 RESULTS

All data contained in this report are in Fijian Dollars and in current prices.

Results of sub-classes 07291, 09901, 08999 have been grouped together in order to protect the confidentiality of the information supplied by them.

### 3.1 The Survey Response

Table 1A: The Survey Response

| FSIC 2010 |  | SURVEY <br> FRAME | RETURNS RECEIVED | RESPONSE RATE \% |
| :---: | :---: | :---: | :---: | :---: |

| CFC | 45,864,006 | 22.0 | 46,854,838 | 24.1 | 2.2 |
| OS | -4,988,182 | -2.4 | 12,505,706 | 6.4 | N/A |
| GFCF |  | 39,612,975 |  | 206,144,765 | 420.4 |
| NUMBER OF PERSONS ENGAGED |  | 1,843 |  | 1,759 | -4.6 |

Notes to assist interpret Table 11:
The VA shows a gradual decrease of 22.3 percent due to the decline in Gross Output. The GFCF shows an increase of 420.4 percent when compared to 2019 due to more additions of assets by companies.
For supplementary information on the mining and quarrying sector reference can be made to Appendix I for the Concepts and Definitions, Appendix II on the Composition of Macroeconomic Aggregates, Appendix III for Production of Gold and Silver, Appendix IV for the Annual Mining and Quarrying Production Index, Appendix V for the Average World Market Price of Gold, Appendix VI for the Macroeconomic Aggregates 1995-2020 and Appendix VII on the Sample Questionnaire.

## APPENDIX I: CONCEPTS AND DEFINITIONS

All concepts and definitions used in this report are based upon the recommendations of the United Nations for their World Programme on Industrial Statistics. The major concepts and definitions and their treatment are briefly explained below.

Compensation of Employees<br>\section*{Consumption of Fixed Capital}

Employment Size Group
Establishment

Fixed Assets

## Foreign Owned

## Gross Fixed Capital Formation

Gross Output

Includes payments, whether in cash or in kind, made by the employer during the inquiry period for the work done to all persons included in the count of employees. It includes all cash payments, commissions, bonuses, cost of living allowances and wages paid during periods of vacation and sick leave, contributions in respect of their employees' social security and pension and payments in kind.

In theory this is the value of the current replacement cost of fixed assets used up during the accounting period as a result of normal wear and tear. The consumption of fixed capital shown in this report is derived from the information supplied by the firm. This is expected to conform largely to the requirements of Income Tax Act and no adjustment is attempted to bring this into conformity with the national accounts definition.

This includes paid employment as well as people engaged.
An Establishment can be referred to as an enterprise that engages in one or predominantly one kind of economic activity, at or from one location, for which data are available or can be meaningfully compiled, that allow the calculation of the operating surplus.

Fixed assets include the value of all physical assets expected to have a productive life of more than one year and intended for use by the establishment. Included are major additions, alterations and improvements to existing fixed assets that extend their normal economic life or raise their productivity.

Subsidiary of an overseas company is always considered foreign owned, whereas a branch of an overseas company is only considered foreign owned if 51 percent or more of its equity is held abroad.

This is the outlay of the mining and quarrying industry on new and second-hand durable goods less their sales plus their own account capital construction work done on similar goods.

This is the gross value of all goods and services produced during the accounting period. Included here are net interests received, the value of capital construction for own account and other income.

## Intermediate Consumption

## Number of Employees

## Operating Surplus

## Payments in kind

## Statistical Unit <br> Unpaid Family Workers

## Value Added

## Working Proprietors

Intermediate consumption consists of non-durable goods and services which have a lifetime of use of less than one year. Compensation of employees do not form part of intermediate consumption, but expenditure such as travelling expenses of management personnel are included. Intermediate consumption differs from total purchases of raw materials, fuels etc. By the amount of stock changes of such goods. Valuation of intermediate consumption is at purchasers' value i.e. it is inclusive of all costs incurred by producers in the acquisition of the required goods and services.

All companies with 51 percent or more of its equity held in Fiji are considered locally owned.

This includes all persons who work in the establishment and receive regular pay and persons working away from the establishment when paid by and under the control of the establishment. Also included are salaried managers, and directors of incorporated businesses except when paid solely for their attendance at board of directors meetings.

This is the excess of value added by producers over compensation of employees, consumption of fixed capital and net indirect taxes.

This is defined as the net cost to the employer of those goods and services furnished to employees free of charge or at markedly reduced cost that are clearly and primarily of benefit to the employees as consumers. The item includes food, beverages, clothing (except uniforms for civilians as these are not worn offduty) and lodging etc.

Statistical unit is the Unit for which information is collected.
Unpaid family workers are persons living in the household of any of the proprietors of the owning establishment and working in the establishment without regular pay for at least one third of the working time normal to the establishment.

Value added is the difference between the gross output and the intermediate consumption. It provides a useful way of measuring without duplicating the economic importance of an industry or industrial sector.

Working proprietors are owners of establishments who are actively engaged in the work of the establishment. Excluded are silent or inactive partners.

## 2020 CENSUS OF MINING AND QUARRYING

Dear Sir/Madam,

Enclosed is a copy of the 2020 Census of Mining and Quarrying questionnaire
COVERAGE AND SCOPE: It covers all establishments engaged in the Mining and Quarrying sector classified under the Fiji Standard Industrial Classification 2010 Section B (refer note on page 2). If an establishment's Mining and Quarrying activities are combined with other type of business, please report only the operations of the mining and quarrying activities.

PURPOSE: The census provides an important means of assessing the contribution this sector makes to the economy of Fiji, and indicates the changing composition and structure of the industry. The results of the Census will be used by the Fiji Bureau of Statistics in the estimation of the National Income of Fiji and in the provision of other key indicators.

REFERENCE PERIOD: Reference period is the calendar year 2020. If your accounting year is different provide information approximating closest to the calendar year 2020. Limited liability companies are requested to submit a copy of their financial statements with the questionnaire.

COMPULSORY REQUIREMENT: The Census is conducted under the provisions of the Statistics Act (Cap 71). In accordance with Section 8 subsection 2 of this Act you are required to fill the questionnaire and return it to the undersigned by the stated due date. Please be advised that failure to meet the above deadline may lead to legal action.

CONFIDENTIALITY OF INFORMATION: Information supplied will be used by the department for the preparation of statistics. Any release of information will be in accordance with the Statistics Act and only authorised persons will have access to individual information.

CONTACT PERSON FOR HELP AND ADVICE: Ms. Sarah Raikoti on email sraikoti@statsfiji.gov.fj or telephone 3315822 (ext. 386 247) or direct line 3230847.

Maria Musudroka [Ms]
Acting Chief Executive

NOTE: Under the Fiji Standard Industrial Classification 2010’s Section B, the Mining and Quarrying are predominantly engaged in extraction of minerals occurring naturally and supplementary activities.

This return is required for the addressed establishment only. In case this is not possible, a combined return with similar main activities may be submitted. If the information cannot be provided on this basis, please state the reasons.

## ORGANISATIONAL STRUCTURE

1 A business can have more than one establishment involved in similar or different activities at different locations. State the location, the type of activity engaged in and the Gross Turnover of each establishment during the year.

## FORM OF OWNERSHIP

5
(1) Fiji owned:

This is an establishment operating in Fiji in which $51 \%$ or more equity is held locally.
(2) Branch of an overseas company:

This is an establishment operating in Fiji which is controlled by or supervised by an overseas head office and which is an integral part of the foreign parent organisation. Branch has no equity share capital.
(3) Subsidiary of an overseas company:

A company is a subsidiary of another if that other company owns this subsidiary wholly or holds more than half the nominal value of the equity share capital of this subsidiary company.

## EQUITY PARTICIPATION

6 Give the proportion of the share capital held by residents of Fiji. Equity share capital held by companies or individuals on behalf of residents of Fiji should also be included.

## OPERATING STATUS

If you are no longer in business, a STATUTORY DECLARATION must be attached with the questionnaire with the words "CLOSED BUSINESS" written across the questionnaire and returned to the Fiji Bureau of Statistics. The Statutory Declaration must be signed by a Magistrate or a Barrister/Solicitor, Justice of Peace or a member of the Notary Public acting on your behalf. The Statutory Declaration must state the name of the business, nature of its activity and the date on which it ceased operation.

## QUESTIONNAIRE

All relevant questions must be answered with clear and correct figures. Estimates will be accepted where actual data are not available. Values, excluding VAT, are to be expressed in Fiji Dollars.

## PURCHASES OF MATERIALS AND OPERATING EXPENDITURE

36 State in detail the total value of all purchases of material and supplies during the year for use in the production process. In arriving at the value, deduct trade discounts received. The cost of transport should also be excluded unless it is accounted as part of the purchase price. Direct import by establishments should be reported at cost. Exclude any transport cost paid to outside firms which should be included in question 50 .

Include all purchases of: a] Basic materials, components, semi-manufactured goods and so on that are physically incorporated in the products of the establishment.
b] Auxiliary materials such as lubricants, packaging materials, small tools, parts, materials for repair and maintenance.
c] Materials for producing machinery or other capital items for own use.
d] Materials bought for carrying "own construction" work reported in question 93.
Exclude all purchases of: Machinery and plant and other capital equipment purchased by you which should be included in question 93.

Exclude VAT paid on supplies of goods and services.

## FUEL, ELECTRICITY AND WATER

38-41 Expenditure on fuel represents the total value of fuel purchased by your establishment for use in the production of heat, power or electricity including gasoline and other fuels for vehicles. Exclude those that enter directly into the production process as they should be reported as raw materials.

42-43 State the total value of electricity and water purchased by your establishment for the production process.

## OTHER EXPENDITURE

44-46 Repairs and maintenance costs paid to other firms covers the total costs of current repair and maintenance service provided by such firms on repairs done on vehicles, building, machinery and equipment of the establishment. Current repair and maintenance carried out by other establishments or by ancillary repair and maintenance unit which has been treated as an independent establishment should be included.

47 Cartage and haulage expense includes payment for the transportation of goods and materials within the country. It excludes cost of transport carried out by your own equipment and employees.

52 Contract and commission work done by other establishments on your materials covers payments made by the establishment for contract and commission work done on materials controlled by your establishment.

69 Include payment in respect of leased\rented land. If it is not possible to separate payments made for land from building, please include expenditure in question 60.

70 Include interest on long-term debts and interest on all borrowing.

## COMPENSATION OF EMPLOYEES

81 Gross wages and salaries includes overtime, sick and holiday pay, bonuses, payments under piece rate schemes, all allowance, severance and redundancy pay, sales commissions paid to own employees and directors fee etc.

83 Payment in kind is the cost to the employer for providing employees with housing transport, clothing, food, drinks, fuels, etc. free of charge or at a reduced rate.

## STOCKS

86 Work-in-progress consists of unfinished output at the end of the reference year.

87 Finished goods bought for resale are stocks of goods bought for resale in the same condition as purchased.

88 The value of materials, fuel supplies and components are stocks of raw materials not used up in the production process.

## LOANS AND ADVANCES

89 Please provide information relating to any loan or advances at the end of the accounting period.

## NET EARNINGS

90 This is the net profit of your establishment\enterprise from the profit and loss account.

## NUMBER OF EMPLOYMENT

91 Please note that the information in respect of employment is for the last pay week in June 2020.

Operatives includes all employees directly engaged in the activity of the establishment, e.g. those in fabrication, processing, assembling, shop messengers, warehouse men, packers and repair men etc. Casual workers should also be included here.

Others includes administrators, technical\clerical personnel, e.g. managers, clerks etc.

Expatriates are non-Fiji citizens who stayed in Fiji.

Working proprietors include all individual proprietors and partners who are actively engaged in the work of the establishment. Silent or inactive partners should be excluded unless they participate actively in the work of the establishment.

Unpaid family workers include persons living in the household of any of the proprietors of the owning establishment and working in the establishment without regular pay for at least a third of the normal working hours of the establishment.

## ENVIRONMENT RELATED QUESTIONS

92 In view of the importance of climate change and disaster related events, the FBoS has embarked on compiling Environment Economic Account to be consistent and comparable with other countries. Therefore, the need to capture these statistics from all sectors within the economy, including all business entities. The information provided by the establishment would help us further improve these accounts which would be used in planning and policy formulation.
